FOSALI® - fibre optic solutions & lighting

Designer chandeliers and unique luminaires manufactured from the most innovative lighting materials, hand-made Bohemian glass and other luxurious materials. We provide ready-made, customised and bespoke installations for all who require high qualities, added value, long lifespan and a creative mind.

Made in Slovakia, designed by great names and powered by very unique lighting technologies, this is FOSALI®.

OPTIC FIBRES

All of our lighting designs are manufactured with a focus on getting the best out of optic fibre technology. Even light distribution along optic fibres, flexibility with shapes, safety for water applications and endless functionalities are the reasons why you will opt for these solutions. What you get are fascinating designs with a low consumption and with a limitless use. And of course a stamp of tradition and best quality of exquisite and hand-made Bohemian glass pieces and designs.

LED TECHNOLOGY

Our continuous developments in LED technology combined with in-depth knowledge which we have acquired through own installations and projects enable us to manufacture luminaires with all of the great benefits thanks to LED - be it a low consumption, maximum lighting output, efficiency and a great flexibility with colour choices to match interior materials and other objects in the room.

In fact, none of our luminaires are produced with anything but LED. Furthermore, we can fully incorporate any non-standard requirements such as 0-10 dimming, DALI, RGB control, KNX or DMX installations or other functional lighting such as LED strips, downlights etc.

All in all, FOSALI® is your first stop for serious lighting solutions with a focus on innovation, versatile designs and spectacular lighting elements with a great touch of originality.

In order to improve FOSALI® luminaires' performance our company reserves right to introduce any design colour and construction changes.

COLOUR INDICATION:

Colour is determined by the last character/s of the reference number e.g. reference number GRAIN-1-5/6-A/C as in GRAIN-1 with a combination of dark and light grey Venetian stucco finish (5/6) with white and green inner colours (A/C).

Outer colour - Venetian stucco

Inner colour

-  1 - White
-  2 - Black
-  3 - Light brown
-  4 - Dark brown
-  5 - Light grey
-  6 - Dark grey
-  7 - Glossy chrome (not Venetian stucco)

-  A - White (RAL 9003)
-  B - Red
-  C - Green
-  D - Blue
-  E - Golden
-  F - Purple
-  G - Light grey

Due to our continuous development of lighting products, our company reserves the right to introduce any technical changes to the luminaires without prior notification. Please contact us for up to date information on technical parameters before preparing any assembly holes or other installation procedures.

Concepts and construction of chandeliers and luminaires in this catalogue are legally protected. Any copying is strictly prohibited.

SPECTRA

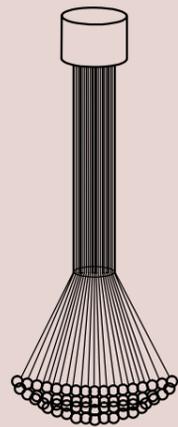

This beauty is for sure to become a magnet in your interior be it a living room, lobby or a luxurious waiting room. It is made from sparkling optic fibres and topped with Bohemian glass crystal, the light is based on LED technology. Delivered as a surface mounted version, for SWAROVSKI version please enquire within.

item no.	base	power (W)	dimensions (mm) HxWxD
SPECTRA-1	circle	20	1000 x Ø500
SPECTRA-2	circle	20	1500 x Ø700
SPECTRA-3	circle	30	2300 x Ø700

*In all versions it is possible to purchase a luminaire with SWAROVSKI crystals. Please state '-SW' when ordering, for example SPECTRA-1-SW (Spectra in Ø500mm and with SWAROVSKI crystals)-

AQUILA

A massive chandelier evoking thousands of illuminating drops of aqua that has become one of our most popular designs. It is ideal for spacious living rooms, sumptuous showrooms or high-end restaurants. The seeming droppings of aqua have been achieved by using three different sizes of Bohemian glass which hang randomly on optic fibres, whilst each has been craftly hand-blown. Thanks to this every chandelier is one of its kind.

Delivered in a surface mounted version, with a mirror finish for more thrill and in numerous sizes, for a downlight version please enquire within. You are guaranteed to purchase a chandelier with a stamp of originality and uniqueness.

item no.	base	power (W)	dimensions (mm) HxWxD
AQUILA-1	circle, mirror finish	20	1500 x Ø500
AQUILA-1-S	square, mirror finish	20	1500 x 500 x 500
AQUILA-2	circle, mirror finish	30	1500 x Ø900
AQUILA-2-S	square, mirror finish	30	1500 x 900 x 900
AQUILA-3	circle, mirror finish	40	2300 x Ø1200
AQUILA-3-S	square, mirror finish	40	2300 x 1200 x 1200
AQUILA-4	rectangular, mirror finish	60	2300 x 2400 x 1200
AQUILA-5	rectangular, mirror finish	60	3000 x 2400 x 1200
AQUILA-6	rectangular, mirror finish	60	4000 x 2400 x 1200

*In all versions it is possible to purchase a luminaire with integrated LED downlights for added light. Please state '-DL' when ordering, for example AQUILA-1-DL (Aquila in a circle base and with LED downlights).

GRAIN

This artistic piece is well suited for all enthusiasts of symmetrical shapes. Thanks to the sensitive contrast between the colours and surface finish we offer great possibilities to match any required interior tones. Use for a boutique bar, modern restaurant, office place or your private place. Delivered in numerous finish and colour combinations, as a surface mounted version and with a mirror finish. Please enquire within for a recessed version. Outer colour/surface finish is always determined by two shades of a chosen Venetian stucco finish (dark and light) for a nice contrast, inner colour is always delivered in white colour with a combination of a desired colour.

item no.	base	power (W)	dimensions (mm) HxWxD
GRAIN-1	rectangular, mirror finish	20	800 x 800 x 400
GRAIN-2	rectangular, mirror finish	30	1200 x 1200 x 600
GRAIN-3	square, mirror finish	30	1200 x 1200 x 1200
GRAIN-4	rectangular, mirror finish	40	1600 x 2400 x 1200
GRAIN-5	slim rectangular, mirror finish	20	1200 x 1200 x 200

*Please state a desired colour combination: surface finish is best delivered in two shades (dark and light), inner colour is best in white with a combination of a chosen colour, for example reference number GRAIN-1-5/6-A/C as in GRAIN-1 with a combination of dark and light grey Venetian stucco finish (5/6) with white and green inner colours (A/C). For colour indications please see front pages of the catalogue.

FLOW

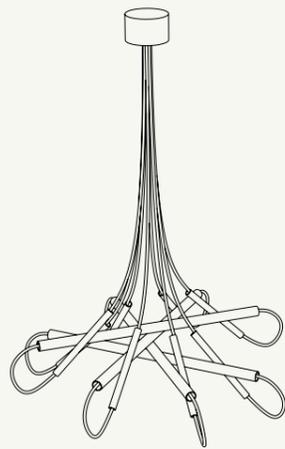

A traditional chandelier design reborn with a modern twist. Using stainless steel pipes the light finds its way through the optic fibres which disappear and then re-appear on the other side of the pipe, everything in a seemingly closed circulation. Simply FLOW. Possible to deliver with various powder coating finishes (white, black, silver, red, green and gold). A beautiful accessory to your interior!

item no.	base	power (W)	dimensions (mm) HxWxD
FLOW-1	circle, mirror finish	20	1300 x Ø800
FLOW-2	circle, mirror finish	30	1900 x Ø1300

*Stainless steel finish, please contact us for prices of other finishes.

PRESCIA

An easy-to-match luminaire which has been hand-made by the most skilled glass artists, offering a beautiful game of light. The luminaire hangs on a solid optic fibre and can be either used as a solitaire or as a part of a more complex luminaire with up to 8 lights in various sizes and heights. The glass shades are hand-made and their size varies from 50 - 150mm in diameter, the total height of the chandelier is given by the longest optic fibre, for any custom lengths please enquire within.

item no.	base	power (W)	dimensions (mm) HxWxD
PRESCIA-1	circle, mirror finish	5	1200 x Ø100 (1 x single)
PRESCIA-2	rectangular, mirror finish	10	1200 x 600 x 200 (2 x single)
PRESCIA-3	rectangular, mirror finish	15	1200 x 600 x 200 (3 x single)
PRESCIA-4	rectangular, mirror finish	25	1600 x 1200 x 600 (5 x single)
PRESCIA-5	rectangular, mirror finish	40	2200 x 1200 x 600 (8 x single)

FIBRA

Secret of this chandelier lies in its easy-to-match style and its pretty cascading shape. Endless colour combinations, base sizes and lengths of fibres predetermine this chandelier for almost any use. It is especially ideal for interiors with high ceilings, shopfloors, wellness, staircases and open entry halls. A surface mounted version or as a recessed one upon request, delivered in a mirror finish for more dramatic looks. In case of RGB, the inner smallest circle delivered in RGB, supplied with a remote controller.

item no.	base	power (W)	dimensions (mm) HxWxD
FIBRA-1	circle, mirror finish	20	1200 x Ø500
FIBRA-1-RGB	circle, mirror finish	20+10	1200 x Ø500

VEIN

Exceptional and exquisite luminaire made from optic fibres and with additional LED backlighting. Airy and light-weight, architecturally interesting and easy to fit any heights and functionalities, this luminaire will definitely circulate blood in your veins. Available in a surface mounted version and ideal to use in places with low natural light as bedrooms, cafes, romantic restaurants or private bars. Thanks to a mirror finish we play tricks on your eyes with its 3D reflection. Possible to deliver in RGB+W and in custom sizes.

item no.	base	power (W)	dimensions (mm) HxWxD
VEIN-1	square, mirror finish	10+30	300 x 900 x 900

INFINITO

A seemingly floating and infinite looking light fixture with beautifully hand-crafted glass fittings. Use as a single hanging piece in your interior or as a part of a modular installation that can be shaped in almost any size or a pattern. Mastered to its last piece are floating glass chips that hang on single optic fibres which are powered purely by LED technology. Thanks to the illusion of a high ceiling based on a mirror finish it is great to use for any low level ceilings. On the other hand, it looks at its best as a part of an infinite looking installation, even in wet areas! Possible to deliver in one tone only, as a recessed version or with integrated LED downlights, please enquire within.

item no.	base	power (W)	dimensions (mm) HxWxD
INFINITO-1	circle, mirror finish	40	1000 x Ø1200
INFINITO-1-S	square, mirror finish	40	1000 x 1200 x 1200
INFINITO-2	circle, mirror finish	40	2000 x Ø1200
INFINITO-2-S	square, mirror finish	40	2000 x 1200 x 1200
INFINITO-3-R	rectangular, mirror finish	60	1400 x 2400 x 1200
INFINITO-4	circle, mirror finish, 2pcs	60	3000 x Ø2400 (consists of 2pcs)
INFINITO-4-R	rectangular, mirror finish	60	3000 x 2400 x 1200
INFINITO-5	sinuous, mirror finish	60	1400 x 2080 x 600 (direct line measured)

*In all versions it is possible to purchase a luminaire with integrated LED downlights for added light. Please state '-DL' when ordering, for example INFINITO-1-DL (Infinito in a circle base and with LED downlights)

ORQUESTRA

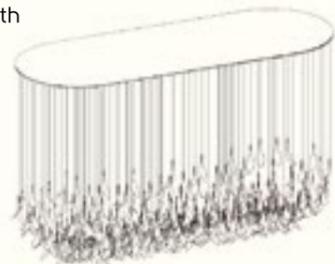

A symphony of shapes and colours, an unforgettable experience which is heightened by optic fibres and LED technology. This elegant light will fill a large space of yours with an incredible work of art behind. The light reflection from optic fibres has been achieved by architecturally crafted aluminium leaves which come in a good portion of finishes - black, silver and brass. A must-have piece to suit your rustic interior and suprisingly great looking in your modern one as well!

item no.	base	power (W)	dimensions (mm) HxWxD
ORQUESTRA-1	circle, mirror finish	40	1000 x Ø1200
ORQUESTRA-1-S	square, mirror finish	40	1000 x 1200 x 1200

365

It takes 365 days exactly for the Earth to orbit the sun and 365nm is also the wavelength of the UV light incorporated in this magnificent light piece. This unique object has been made by a special glass-making technology which reacts to a UV light and gives it its great purple or beige colour (depending on the type). This luminaire will turn to colour even when switched off as long as it is exposed to a daylight. Whilst having LEDs integrated inside for the functional lighting your light piece will be like nothing on this Earth.

item no.	base	power (W)	dimensions (mm) HxWxD
365-P	square, mirror finish	40	1300 x 600 x 600 (purple tint when UV light on)
365-B	square, mirror finish	40	1300 x 600 x 600 (beige tint UV light on)

Design by MEJD studio

CUSTOM-MADE

Our asset lies in a strong design focus which we put in all of our work, be it a standard collection or individually customised designs.

It is also in our capabilities and a constant willingness to fulfill your special requests for your applications. Thanks to having possessed of extensive experience in the whole process from design making, through prototyping and all the way to the installations we are able to deliver projects of any scale. This way you can concentrate on other parts of your project whilst we are on your case!

Your light installation does not have to finish with a delivery of chandelier only. Thanks to our large portfolio of the highest quality of various LED products (LED backlight, linear lighting, functional & commercial lighting etc.) you can leave your project completely in our hands. We will design the light scenes, offer the best lighting solutions and even deal with your light control.

Or try our product range of optic fibres products and systems. We manufacture starry sky sets for beautiful wellness and spa use, optic fibre systems for swimming pools, staircase or other applications. We are one of the few manufacturers who constantly seek new solutions in this demanding industry of optic fibres and you are sure to be guaranteed great functionalities, flexibility with design and a durability of our systems.

All in all, we thrive in being challenged whilst not omitting to look for the best possible solutions to fulfill your wishes. This is why you should not limit yourself and let us deal with your daring ideas!
